The core tokenomics (total supply and distribution) are immutable post-TGE via the smart contract. Roadmap and technical details (e.g., chain) may be adjusted pre-TGE. Contract addresses and metadata will be published post-TGE on aetherfrog.com.1. Introduction AetherFrog is the ultimate Cosmic Meme-Coin, inspired by Pepe but packed with more frog-power and degen love! We blend meme culture with a Web/Telegram Play-to-Earn (P2E) game, igniting a wild, fun frensy for our community. Our vision: Build an army of AetherFrog frens united by quests, leaderboards, and airdrops – rug-pull-proof and ready to moon! USP: The first meme-coin with a Web/Telegram P2E game, offering leaderboard rewards and airdrops for all degen fans. Story: AetherFrog, the crazy cosmic frog, leaps from the blockchain swamp straight into the hearts of the degen community. No ordinary frog – this guy's your fren, your HODL hero, your ticket to the Meme-Moon-Party! Goal: 420.69T tokens, 90% LP burn for fairness, 8% vesting for loyal frens, 2% airdrop for community hype.2. Tokenomics AetherFrog rocks a fair, Pepe-style model: max liquidity, zero inflation, full degen focus. All tokens are minted at TGE, with mint authority revoked – no rug-pulls, just love!

- Total Supply: 420,690,000,000,000 (420.69T) AETHFROG, 9 decimals.
- Distribution:
 - 90% (378.621T): Liquidity Pool (LP), burned to a dead wallet (e.g., 11111111111111111111111111111111), ensuring epic liquidity and rug-pull safety.
 - 8% (33.6552T): Vesting for team and all P2E players, locked for 12 months in a timelock contract. Post-lock, airdropped to all players based on points system and leaderboard rank.
 - 2% (8.4138T): Airdrop for community, distributed weekly based on P2E leaderboard (0.1% = 0.0084T per week over 20 weeks).
- Rug-Pull Safety:
 - Mint authority revoked post-TGE.
 - 90% LP tokens burned to dead wallet.
 - Vesting locked in timelock (12 months).
- Metadata: Name (AetherFrog), symbol (AETHFROG), image (cosmic frog!), and description hosted on IPFS. Details published pre-TGE on aetherfrog.com.

Distribution Purpose:

- LP (90%): Max liquidity for DEX trading (e.g., Raydium/Uniswap).
- Vesting (8%): Long-term love for team and all P2E players, airdropped for fairness.
- Airdrop (2%): Hype for early frens and P2E degens, distributed weekly.

3. Play-to-Earn (P2E) GameAetherFrog's core is a P2E game blending meme vibes with degen gaming magic. Hop, collect, win – become a leaderboard legend!

- Concept: A clicker-quest game (Notcoin-style with frog swag). Quests: daily puzzles, frog collecting, mini-games (e.g., "Frog Race," "Galactic Leap"). Points for leaderboard.
- Platforms: Web (aetherfrog.com/play) and Telegram (t.me/AetherFrogBot Mini-App). Wallet-Connect (Solflare/MetaMask) for login and token loot.
- Leaderboard: Public on website/Telegram, top 100 players by points. Updated daily, with weekly airdrop hype.
- Rewards:
 - Mini-Airdrops: 2% pool (8.4138T) over 20 weeks ($0.1\% = 0.0084T$ per week) to top 10 leaderboard degens.
 - Vesting Airdrop: After 12 months, 8% pool (33.6552T) to all P2E players, distributed proportionally based on points system (e.g., 1 point per hour played, 10 points per completed quest) and leaderboard rank. Example:
 - Points: 1 per hour played, 10 per quest completed.
 - Distribution: Higher rank/points = larger share (e.g., top 1% get 10x more than base players).
 - Minimum: 10 hours playtime for eligibility.
 - Optional NFTs: Frog skins or boosts (e.g., "Cosmic AetherFrog Skin"), tradable on Magic Eden/OpenSea.
- Monetization: Boosts (e.g., extra points for AETHFROG) and optional NFTs (skins). No pay-to-win, pure degen fairness.
